Introduction

In the year 2017, Bernadette de Lourdes School of Nursing Science (BLNS) has realized that the tacit knowledge of tobacco control integration that immersed in each instructor is considered as knowledge asset. Therefore, BLNS had been conduct KM café in the terms of tobacco control integration in clinical setting and tobacco control research initiative. There were sharing tacit knowledge among BLNS new faculty members and experienced instructors. After faculty member have sharing tacit knowledge through KM café, the BLNS model was drawn in diagram. In addition, AU KMS web board will be used as a channel of sharing tacit knowledge of BLNS faculty members to public.

For sharing experience in practice, please contact Bernadette de Lourdes School of Nursing Science, Assumption University.

AU Nursing Student Received Top Award
for Venturing on "Smoke-Free Thai Society"
Campaign
